Chicksugur – Raichur section of Wadi – Raichur railway electrification project commissioned

The Chicksugur to Raichur section of Wadi – Raichur railway electrification project was successfully commissioned on March 04, 2017. The section comprises 31 TKM of 25 kV OHE (Overhead Electrification) works.

219 TKM of the Wadi – Chicksugur section of the project was commissioned in September 2016, which comprised Over-Head Electrification works in Raichur thermal power station (RTPS) of the Raichur district in Karnataka.

The project (WRRC – Pkg2) now stands entirely commissioned with 250 TKM OHE (Overhead Electrification), nine switching stations and one traction substation.
